EXPERIENCE

MakQuick Pvt. Ltd

React Developer

Aug. 2025 – Aug 2026

Ahmedabad, Gujarat

- Developed a quotation management system for sanitaryware and hardware products
- Built dynamic and reusable UI components for product selection and pricing.
- Implemented form handling and state management for real-time quotation updates.
- Integrated frontend with backend APIs for quotation generation and data handling.

Maven Regtech Pvt. Ltd

Mern Stack Developer

May 2025 – July 2025

Ahmedabad, Gujarat

- Built responsive web pages and components using React.js for internal compliance tools
- Worked with props, state, hooks, and form handling to create dynamic UIs.
- Collaborated with team to integrate frontend with backend APIs.

Dipc Software

Mern Stack Developer

Jan 2025 – April 2025

Ahmedabad, Gujarat

- Developed full-stack web applications using MongoDB, Express, React.js, and Node.js
- Implemented RESTful APIs and integrated frontend with backend services
- Developed full-stack web applications using MongoDB, Express, React.js, and Node.js.

PROJECTS

Diet Recommendation System

- Independently developed a full-stack Diet Recommendation System using the MERN stack, providing personalized meal plans based on user inputs and dietary preferences.
- Implemented RESTful APIs with Express.js and an interactive React.js frontend with data visualization to track daily food intake and progress toward dietary goals.

Online Doctor Appointment System

- Developed a full-stack Online Doctor Appointment System using the MERN stack, enabling patients to book, manage, and cancel appointments with available doctors.
- Implemented a responsive React.js frontend, real-time notifications, calendar integration, and secure JWT-based authentication with role-based access control for patients and doctors.

E-Commerce Website

- Developed a user-friendly E-commerce website using React.js, featuring product search, filtering, sorting, and responsive UI for seamless product discovery.
- Implemented a **product recommendation system** based on user behavior and preferences to provide personalized product suggestions.
